A Word of Kindness.

How softly on the bruised heart
A word of kindness falls,
And to the dry and parched soul
The moist'ning tear-drops call;
Oh! if they knew who walk the earth
Mid sorrow, grief and pain,
The power a word of kindness hath,
T'were paradise again.

The weakest and the poorest may
The simple pittance give,
And bid delight to withered hearts
Return again and live!

Oh! what is life if love be lost,
If man's unkind to man?
Or what the heaven that waits beyond
This brief and mortal span?

As stars upon the tranquil sea,
In minute glory shine,
So words of kindness in the heart
Reflect the source divine.

Oh! then be kind who'er thou art
That breathes the mortal breath;
And it shall brighten all thy life,
And sweeten even death.

ARIZONA ITEMS.

The following petition is now being circulated throughout the Territory to the Congress of the United States:

The undersigned, citizens of the Territory of Arizona, beg respectfully to represent that the coaches bearing the United States mails are continually robbed in this territory and elsewhere, to the disgrace of the nation and detriment of its citizens.

We therefore beg to petition that the Postmaster General of the United States be authorized to employ a "Postal Guard" of sufficient number and with adequate armament to protect the mails of the United States wherever they are carried, with authority to kill and destroy any person or persons who may molest them. That the expense of maintaining said "postal guard" may be paid out of the revenue of the Post Office Department and that its organization may be regulated by the Postmaster General of the United States.

Star: Col. Lewis, a practical miner and geologist, who has operated in all the mining states on the Pacific Coast, has returned from a tour of inspection of the Tombstone district. He says he never before saw so much mineral wealth, and believes that the district will prove by development to be the most profitable ever discovered on the Pacific Coast. This is a broad assertion, but the field is open to the inspection of all, and interested parties of experience can see for themselves. There is nothing but back. The ore is on the dumps at several shafts, and more is being taken out daily, and besides, the surface indications are before them. In proof of our assertions in reference to the richness of the development, all we ask is for practical miners to give the district a personal inspection.

Enterprise: Tom Waters, a saloon keeper at the Peek mine, and Murphy, a miner, became involved in a dispute relative to a division of some money which Murphy had won at poker the night before with a stake given him by Waters. The latter called Murphy a "thieving son of a b—" and both pulled at the same time, and turned loose. Waters received a flesh wound in the shoulder; a ball from his pistol struck the cylinder of Murphy's revolver and split, half of it going through Murphy's right sleeve. Five shots were fired, when both pistols refused to revolve, and Waters struck his opponent over the head with his, and the deputy sheriff stepped in and stopped the row.

The following contracts for flour have been awarded by Capt. Chas. P. Egan, Chief C. S. under his advertisement of June 10, 1878:

Camp McDowell—20,000 pounds at 3.38 cts. to C. T. Hayden.

Camp Verde—35,000 pounds, at 4.97 cts. to C. T. Hayden.

Ft. Whipple—35,000 pounds, at 4.97 cts. to C. T. Hayden.

Camp Grant—10,000 pounds, at 6.25 cts. to Samuel Katzenstein.

Camp Huachuca—40,000 pounds, at 6.99 cts. to Samuel Katzenstein.

Camp Thomas—15,000 pounds, at 6.10 cts. to Chas. Lesinsky.

Camp Bowie—35,000 pounds, at 5.37 cts. Chas. Lesinsky.

Miner: A handsome baker was going along Montezuma street with his arms full of bread; and surmounting the latter there was a large, hard, long sausage. One of the loaves of bread descended to mother earth, whereupon the child of dough stooped down to try to pick it up, which caused him to drop the sausage, too. Being a German, he exclaimed: "Veigh I drop die bread dat was bad, but veigh I lose him sausage, dat was bad zu worst."

Sentinel: The arrival here of a single shipment of over 100,000 pounds of salt for the Hackberry

quartz mill, shipped by rail from San Francisco, is not an altogether pleasant thing to contemplate. Of course the railroad company delivers it at a price that benefits the quartz-mill, and to that extent benefits the country. But on the other hand this competition shuts out a large number of men and teams which were developing the great rock-salt mines of the Virgin and Muddy, and to that extent injures the country. Ox teams have no chance to compete with a railroad and steamboat that carries salt over 1,000 miles for less than one cent per pound. If other goods were brought into Arizona at the same rates, then indeed could our joy be unminged. But there are two ways of looking at this salt business.

Sentinel: Prescott freight is likely to take a new route from Yuma. Several freighters have offered to haul from there to Prescott at 6 to 7 cents per pound, and for less as the roads get packed, or grain gets cheaper.

At present that freight goes from Ehrenberg at 4 1/2 to 5 cents per pound, and from Yuma to Ehrenberg by steamboat at \$20 per ton, measurement, equivalent to 1 1/2 to 2 cents per pound weight. The proposition is to go by way of Burke's and Wickenburg, bringing lumber to Phenix and getting cheap grain there on return trip. This last cannot be done on the Ehrenberg road.

As the railroad progresses up the Gila this new route will be adopted anyhow, freight being delivered to teams at new depots.

Sentinel: Truman did not come out here, after all, to investigate mail matters; and we are glad of it, for he perhaps would have done no work heavier than hunting shade.

Perhaps the P. O. Department thought so too; a man has been sent out who has fewer political patrons, but who is willing to work. Unfortunately his efforts are to be chiefly directed toward detection of robbers; he therefore requests that his name and destination be not made public. But Arizona can still hope that live Agents may yet be appointed, who will look after mail abuses quite as intolerable as robberies.

Miner: A meeting of the creditors of the estate of S. C. Miller & Co., was lately held. The accounts of T. J. Butler, assignee, were presented, audited and allowed, showing cash balance on hand of \$2,760 23. Amount received by the estate was \$6,560 69. Amount disbursed by assignee, in settling up estate, \$3,767 51, leaving balance as first stated. A dividend of 3 per cent, was declared to the creditors. Indebtedness against the estate to the amount of \$45,560 02 has been proven.

Miner: From present indications the country about the Tiger mine will, within the ensuing six months, have three mills in active operation. The mill for the Oro Bonito mine is on its way; Mr. Helm, the superintendent of the Tiger, has gone to San Francisco to arrange for the erection of a mill for that mine, with every assurance of success; and the immediate erection of a mill upon the Gray Eagle mine is almost a certainty.

Miner: A "hasty bowl of soup" looking individual, with a horse at the end of a riata, threw open the dining room door, this noon, at the Bon Ton restaurant and inquired in a stentorian tone of voice, "Can I get dinner here in two hours?" "Well," said the Japanese proprietor very politely, "we have only three men here to wait on the table, but I think we can bring you out all we have in that time."

Miner: Davis will carry Mohave county by a large majority. Woolsey will carry Maricopa, Pinal and Yuma. He will come into Yavapai ahead of Campbell 700 votes, and lead Stevens and Davis about 500. He will stand either of the other candidates off in Yavapai and beat Campbell in Prescott. That's what's the matter with Hannah.

Expositor: A species of wild cat was killed in the cottonwood grove twelve miles above Yuma, several days ago. It had a long tail, a double set of ears and measured three feet two inches from tip of nose to end of tail. Its skin is a matter of great curiosity to all who examine it.

The arrangements for the construction of a telegraph line from Tucson to Arivaca are completed, and work will shortly be commenced. It will cost about \$5,000. The Governor of Sonora is prepared to commence building a connecting line from Guaymas, thereby giving direct communication with the city of Mexico.

San Francisco Prices.

Buyers will do well to note this fact and call there and examine this stock before it is all gone, as there are bargains to be had undoubtedly.

Powder,

Fuse,

and Caps for

MINERS.

a Specialty. Agricultural Implements in stock and in transit for

FARMERS.

Do not forget the store on the west side of the Plaza with the sign

E. IRVINE & CO.

As soon as the Atchison, Topeka & Santa Fe railroad is built well into New Mexico, Messrs. H. Lesinsky & Co., of the Clifton copper mines, will guarantee 4,000,000 pounds of freight per annum; three going out and one coming in from their business alone.

The new hotel of Fred Williams, at Prescott, is two stories high, 64 feet long and 35 feet wide. It is to have about 30 sleeping rooms, besides a parlor, sitting room, etc. The building looms above all others and is an institution much needed in Prescott.

Picket Post has four mercantile establishments, two hotels, and saloons without number. Three quartz mills are in active operation. Subscriptions are being raised to build a school house.

Fifty-seven recruits left Omaha on the 6th of this month under Lt. Rhodes, Eighth Cavalry, for distribution in Arizona.

Yavapai and Mohave counties shipped during the month of August, to San Francisco, in silver bullion, \$160,000.

The Department at Washington has telegraphed Gov. Hoyt to remain until the arrival of Gen. Fremont.

Parties are still pursuing the murderers of Adams and Finley, and with good prospects of success.

On the night of the 6th instant, Eljio Diaz shot and killed his wife at Tucson.

Sheriff Tyner has been appointed deputy U. S. Marshal for Yuma district.

Fever is quite prevalent in Tubac, in the southeastern part of the Territory.

Tucson at present is full of mining and railroad men.

Chief Justice French has arrived in Tucson.

Yavapai county has fifteen school districts.

An Arizona Railroad Corporation.

Yuma Sentinel: The following articles of incorporation will soon be filed with the Recorder of Yuma county:

We, whose names are hereunto annexed, do hereby certify that under and by virtue of the provisions of Chapter LI, entitled "Of General Corporations," approved November 9, 1866, we have associated together as a general railroad corporation, and pursuant to the provisions of law aforesaid do declare and specify as follows:

First: That the name by which said corporation shall be known is "The Southern Pacific Railroad Company," and its duration shall be fifty years from these presents.

Second: That the enterprise and business in which said corporation proposes to engage is the construction, maintaining and operating of a line of railroad and telegraph commencing on the western boundary of said Territory at the town or village of Yuma (where it is to connect with the railroad and telegraph line of a certain corporation organized under the laws of the state of California and known as the Southern Pacific Railroad Company of that State) running thence easterly, following, as near as may be found practicable, the 32d parallel of north latitude to the eastern boundary of said Territory—the eastern terminus of said railroad and telegraph to be at, or as near as may be found practicable, to the point of intersection of the eastern boundary of said Territory and the said 32d parallel of north latitude.

Third: That the place where said corporation proposes to establish and continue its principal office, or place of business, is the town or village of Yuma, in said Territory.

Fourth: That the capital stock of said corporation is to be twenty millions of dollars (\$20,000,000).

Fifth: That the amount of each share of said capital stock shall be one hundred dollars (\$100).

Witness our hands hereunto set in triplicate, on this 20th day of August, 1878.

Aug. 23,

Sept.
